

ACCEPTABLE USE POLICY — Bunsy

Operated by: QUICK AI SOFTWARE SOLUTIONS HUB - FZCO, a free zone company (FZCO) with limited liability, incorporated on 27 February 2026, Trade License No. 80532, Registration No. 78782, registered with the Dubai Integrated Economic Zones Authority (DIEZA), registered office at IFZA Business Park, DDP, Premises No. 80532-001, PO Box 342001, Dubai, United Arab Emirates ("**Company**", "we", "us", "our").

Last updated: August 17, 2026 · **Effective date:** August 17, 2026 · **Version:** 1.0

This Acceptable Use Policy ("**AUP**") forms part of the [Bunsy Terms of Service](#) and is incorporated into them by reference. It applies to prompts, uploads, AI-generation requests, editing activity, downloads, Published Content, profiles, comments and reactions, follows, reports, and every other use of Bunsy. Capitalized terms have the meaning given in the Terms.

1. Core rule

Use Bunsy only for lawful, legitimate, safe, and rights-respecting creative purposes. You must not use AI generation, editing, publication, social features, or any other Bunsy functionality to create, facilitate, or distribute prohibited content.

2. Adult-only service and protection of minors

Bunsy is intended only for users aged 18 or older (or the higher age of majority in your jurisdiction).

Any sexualization, exploitation, grooming, nudity, sexual depiction, or endangerment of minors is absolutely prohibited, with no exception. Attempts to create, transform, solicit, describe, or distribute child sexual abuse material (CSAM) or sexualized depictions of minors result in immediate termination, and we remove the content, preserve relevant records where legally required, and report to the competent authorities and applicable reporting bodies (for example NCMEC, where applicable) as required by law.

3. Sexual and NSFW content

Pornographic, NSFW, sexually explicit, sexually suggestive, fetish-oriented, erotic, and other content intended for sexual arousal is prohibited. This applies to real and fictional persons alike, and to prompts, source media, generated Output, edits, and Published Content.

Attempts to evade moderation through coded, translated, obfuscated, indirect, or multi-step instructions are equally prohibited.

4. Likeness, deepfakes, and non-consensual content

You must not create or publish deceptive impersonations, non-consensual intimate imagery, harmful face-swaps, misleading deepfakes, or synthetic media that falsely represents a real person's actions or statements.

If you upload or process another person's face, likeness, or voice, you must be that person or hold all rights and consents necessary for the intended use. We strongly recommend uploading only your own likeness.

For any real person other than yourself, you must obtain and retain documented proof of consent, which we may request in cases presenting elevated safety or rights risk and which you must produce within seven (7) days of our request (Terms, Section 8.2).

You must not remove, alter, or conceal any AI-generation label, watermark, or provenance signal, and you must comply with applicable laws requiring disclosure of synthetic or AI-generated media.

5. Violence, hate, self-harm, and dangerous conduct

You must not use Bunsy to promote or meaningfully facilitate terrorism, violent extremism, targeted hatred or discrimination, serious violence, self-harm, dangerous criminal conduct, or instructions intended to cause serious physical harm.

6. Fraud, deception, and manipulation

Scams, phishing, forged evidence, fraudulent advertising, identity fraud, deceptive impersonation, malicious misinformation using synthetic media, and political or electoral deception involving impersonation or materially misleading synthetic content are prohibited.

7. Harassment, privacy, and personal data

Do not use Bunsy for harassment, stalking, threats, doxxing, non-consensual exposure of private information, or targeted abuse. Do not upload private or sensitive material about another person without a lawful basis and that person's permission.

8. Intellectual property and other rights

Do not upload, generate, edit, or publish material that infringes copyright, trademark, trade secrets, privacy, publicity, likeness, voice, or other third-party rights. You are responsible for obtaining all required licenses, permissions, and consents. Intellectual-property complaints and counter-notices are handled under Section 9.5 of the Terms.

9. Social platform abuse

Do not spam, coordinate harassment, impersonate other users, manipulate followers, reactions, comments, views, recommendations, or reach, operate abusive bots, repeatedly repost removed content, or use deceptive techniques to game the feed or platform metrics.

10. Security and service abuse

Do not bypass safety systems, moderation, access controls, rate limits, payment controls, or technical restrictions; exploit vulnerabilities; distribute malware; conduct prompt-injection or other security attacks; reverse engineer protected components; scrape the Service abusively; or create accounts to evade enforcement or to abuse introductory Token grants, referrals, or other promotional benefits.

You must also comply with the acceptable-use policies of the Third-Party Providers whose models you invoke.

11. Moderation

We use automated and manual measures to moderate generation requests and Published Content. Generation requests may be screened by automated safety systems — ours and those operated by the Third-Party Providers that process them — before or during generation. A request may be blocked where it is denied, flagged, cannot be safely screened, or otherwise appears to violate this AUP. A refusal on safety or content grounds is not a technical fault of the Service, and Tokens spent on such a request are not restored under Section 12.5 of the Terms.

We may remove or limit content, reduce its distribution, restrict features, suspend or terminate accounts, preserve evidence where legally appropriate, and take other reasonable measures to protect users, rights holders, payment partners, and the Service. There is zero tolerance for objectionable content and abusive users: we aim to review valid reports and, where appropriate, remove the content and the offending account **within 24 hours**.

12. Reporting and appeals

Report suspected violations through the in-app reporting tools or at **info@quick-ai.solutions**. Include enough information for us to identify and assess the content or behavior.

Where appropriate we will notify you of an enforcement action and, where required by applicable law (for example the EU Digital Services Act), provide a statement of reasons and information about available redress. You may contact the same address to contest an enforcement decision. We may act immediately and without prior notice where there is a serious safety, child-safety, fraud, security, or legal risk.

13. Changes

We may update this AUP to reflect changes in Bunsy, applicable law, safety standards, AI-provider requirements, app-store rules, or payment-provider requirements. The current version is published at <https://bunsy.io/acceptable-use>, and we update the "Last updated" date when it changes.
